“Our strategy is driven by our Purpose to help customers live sustainably, simply and affordably.

Our business is founded on a 200-year heritage of serving people. We supply energy and services to over 10 million residential and business customers, mainly in the UK and Ireland.

We put colleagues and customers at the heart of everything we do, delivering innovative energy and services solutions to help homes, businesses and communities live sustainably, simply and affordably.

Key to this is our talented team of 20,000 colleagues including 7,000 engineers, who serve millions of customers every day through trusted brands like British Gas, Bord Gáis Energy and Centrica Business Solutions.

Our focus on improving operational performance, a strong financial position and a responsible approach to business means our customers can rely on us for their energy needs. It also allows us to invest in energy security and the transition to net zero whilst creating the diverse and inclusive team we need to succeed and contribute to the communities we’re all part of. In doing so, we can add value for customers, colleagues, communities and shareholders alike.
